Truck & Van Equipment Inc.

Platform Bodies

All of our Platform bodies are made of heavy-duty welded construction to withstand the abuse of everyday loading and unloading of material required in the commercial marketplace. Whether your application calls for a light duty, standard or heavy duty model, Commercial Truck & Van can provide the right platform to fit your needs.

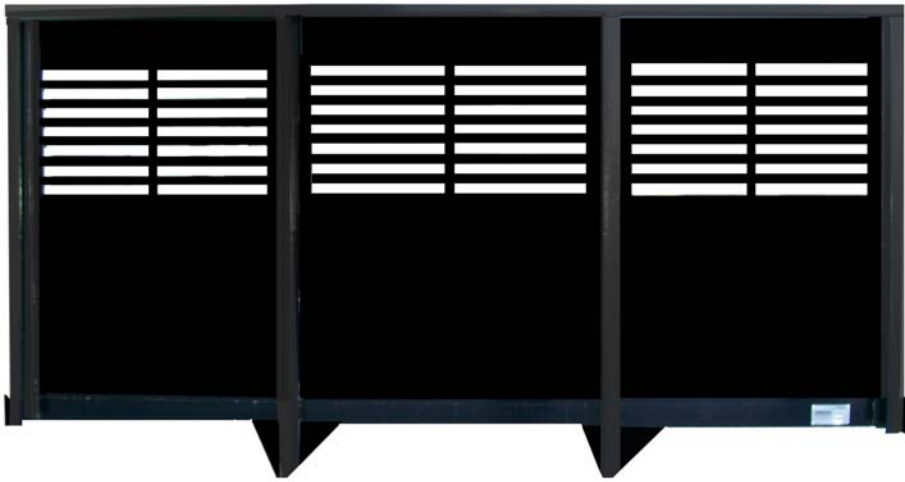

Platform Dimensions	To Fit Cab to Axle	Single Rear Wheel/Dual Rear Wheel	Weight Smooth Steel 11GA	Weight Smooth Steel 7GA	Weight Treadplate Steel 11GA
8' X 82"	56	SRW	935	1095	952
8' X 96"	56	DRW	1000	1160	1074
9' X 96"	56 / 60	DRW	1102	1282	1186
10' X 96"	60 / 84	DRW	1198	1398	1291

Heavy Duty Weld on Bulkhead

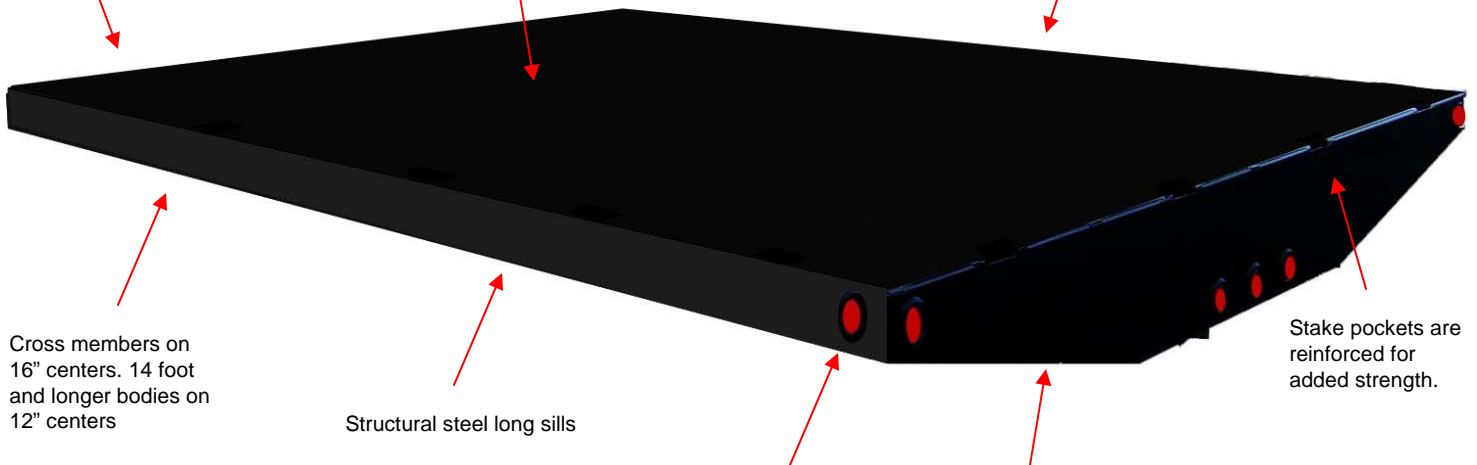

- Available in 40X82", 40X96" and 51X96"
- 11 gauge smooth steel with window made from formed one-piece construction.
- Inner stakes are 3" structural channels welded directly to platform long sills.
- Full access design allows material to be loaded flush with the front of the platform.
- Painted with gloss black acrylic topcoat.
- Tapered bulkhead also available.

The heavy duty welded construction with high grade materials ensure quality and durability for years to come.

¼" high strength roll formed steel side outrails.

Choice of treadplate steel or smooth steel.

High gloss black acrylic topcoat prevents corrosion.

Cross members on 16" centers. 14 foot and longer bodies on 12" centers

Structural steel long sills

Stake pockets are reinforced for added strength.

Long Sill Member Heights

8' X 82" = 4"

8' X 96" through 12' x 96" = 6"

14' X 96" through 18' X 96" = 7"

20' X 96" through 24' X 96" = 8"

All lighting meets FMVSS 108 requirements.

Tapered rear apron with recessed lights.

Recessed rubber mounted lights are protected from impact and weather.
